

Minisymposium NMR Spectroscopy in Ionic Liquids

Thursday, 07 May 2009
Institute of Organic Chemistry
Criegee-Hörsaal (R 104), Geb. 30.41

15:45–16:15	A. Stark, Jena	"Ionic liquid structure-induced effects on the esterification reaction: combining spectroscopic evidence with reaction outcome"
16:15–16:45	P. Schulz, Erlangen	"NMR spectroscopy as a tool for investigation of ionic liquids properties"
16:45–17:15	J.R. Sangoro, Leipzig	"Self-diffusion in ionic liquids: a combination of pulsed field gradient NMR and broadband dielectric spectroscopy"
17:15–17:45	R. Giernoth, Karlsruhe	"Cation–anion interactions in ionic liquids studied by NMR"

All visitors are welcome!
